- LinkedIn
- Certificates
- Codechef - **3 Star**
- Codeforces - **Pupil**
- Leetcode - **200+**
- Hackerrank

## Skills

### PROGRAMMING

C • C++ • Python • Java

### DEVELOPMENT

ReactJS • Redux • HTML • CSS •

Nodejs • ExpressJs • Git

### DATABASES

• MYSQL • MongoDB

### FRAMEWORKS

Bootstrap • Tailwind CSS • Antd

### PROBLEM SOLVING

Data structure and Algorithms (500+ Problem solved on Different coding Platform)

## Coursework

Database Management System  
Object Oriented Programming  
Computer Networks

## Achievement

- **Smart India Hackathon Winner** - Winner of Smart India Hackathon 2022 under Senior Division for Problem Statement DR727.
- **Ideazest** - Secured 2nd rank in Ideazest in PCSB event. where we proposed prototype idea based on blockchain technology.

## Experience

### ● REBERT Technologies Pvt. Ltd

FRONT END DEVELOPER

📅 May 2020 – June 2021

📍 Pune, Maharashtra

- Contributed to building a web platform for property dealer.
- Focus was to make user interface more user friendly, we used different tables to organize such large data and get all data in form format to generate hard copies.
- Tech stack - ReactJs.

## Recent Projects

### ● SpaceShip - Fullstack project

- User-friendly Social media platform for space-interested people build using MERN Stack
- Full responsive UI by Reactjs and Material UI.
- User authentication and authorization using jwt, and server build using Node and Express js and MongoDB use as the database.
- Techstack - **Nodejs, Expressjs, Mongoddb, Reactjs, Redux toolkit, MUI, Jwt**

### ● One Point Document Verification - Smart India Hackathon

- Developed a one-point student and faculty verification portal for colleges under AICTE for ease of validation.
- The solution considerably reduces manual processing time by making it simple for AICTE to seamlessly integrate and check data from many source points, like UID, PAN, and NPCI.
- Used ReactJS, Tailwind CSS and Redux use for complete state management. Implemented live image sharing of user for face verification.
- TechStack - **ReactJS, Tailwind CSS, Redux**

### ● Xeniverse website

PICT CSI CLUB

- Build the website for the PICT CSI event Xeniverse
- The platform recorded a footfall of **3000+** registration
- Used **ReactJS, Redux, tailwind CSS** for the development.

### ● MCQ platform

- The goal of MCQ platform was to host a mcq test for different events in annual event of club.
- About 100 user given a online mcq test on platform
- Used **ReactJS** and **Redux**. Platform was fully Responsive.

### ● News Application

- This is react app which provide latest news to user.
- TechStack **Reactjs, Router, API**

## Co-curricular

- **Hour Of Code** - Taught block coding to about 100 student in ACM chapter event Hour of Code.
- Member at ACM student chapter at PICT (PASC)-
- Member at CSI student club at PICT(PCSB)-
